

DETAIL OF MARKING

Steel class

Only for steel bolts whose steel class is identified and does not follow directly from the standard NF F 50-008 §4.3.1

Example: 5.6 = 5; 8.8 = 8 (see table)

@ **:

@ = 1 letter for the identification of the manufacturer's brand name.

Contact PANDROL to obtain the manufacturer's identification letter.

followed by

** = last 2 figures of manufacturing year.

Diagram of a Pandrol nut showing identification markings. The nut is hexagonal with a central hole. The markings include the letters 'P', 'F', '8', and '2' arranged around the central hole. A small 'P' is also visible near the bottom left. The nut is shown with a blue crosshair indicating the orientation of the markings.
