

Pandrol FAT* Plan	Component: C225/195-J08 Coachscrew (GS, 25mm, 164mm)	
Approved Supplier: Sudelan, China	Contract: DMBL/MLJV/SCA/00X Project: Dubai Blue Line RA/RPD/23-9571	
Issue Date: April 2026	Issue Level: 01	Approved By: P Mitchell, QHSE Director, Pandrol Limited
Amendment(s) from previous issue level:		
Confidential Information: Pandrol Proprietary Specification		* FAT = Factory Acceptance Testing It is a requirement to supply a copy of a current calibration certificate (signed) for each piece of calibrated inspection and test equipment used during FAT.
FAT Acceptance Criteria: In the event a non-compliant result occurs during the FAT, the following action shall apply: For every failed component, a further 3 components shall be selected. Inspection or testing of the non-compliant feature shall be carried out on these 3 components. If 2 or more of these 3 components give a non-compliant result, the batch shall be rejected.		

Doc. Ref: PUK 021/01

Item	Compliance Specification	Reference Document	FAT Sample Size	Witness Inspection Activity
