

05/05/2026 – Issue 1

Pandrol Australia Order Reference: PO047663
Project: C1368
Shipment: XYZ-002-01
Date:2026-05-27

Type 3.1 (EN 10204) - Certificate of Conformity

This is to confirm the component(s) described below comply with the applicable Pandrol specification and Pandrol drawing. The inspection and test results shown are taken from the manufactured batch(es) of product supplied on the order reference(s) shown above.

Component	Quantity	Specification	Results
SPSC6161	3500	Composition Complies with steel grade 5.6 to ISO 898-1 Pandrol specification LC-L issue 6	Conforms. Material certificates attached. Heat numbers: G631202650
		Dimensions Complies with Pandrol drawing 6161/SNG issue A.1 37 ±2mm	36.0,37.4,37.9,38.8mm
		φ24 +0.7/-0.3mm	23.9,24.0,24.0,24.1mm
		142 ±5mm	140.3,142.7,145.1,146.7mm
		Appearance - Free from harmful burrs and sharp edges. Threads uniform and complete. Pandrol specification LC-L issue 6	Conforms on all samples
		Markings - Present, legible and correct. Pandrol drawing 6161/SNG issue A.1	Conforms on all samples
		Corrosion protection Complies with hot dip galvanising to ISO10684 min 50um batch ave thickness Pandrol specification LC-L issue 6	69,91,102,108um

Out of specification results are shown in red
